

## AART ALERTS - January 9, 2008

Alert Number	Affected AART	Date Identified	Description of Problem	Workaround
20084	5.1	01/07/08	ARCA-PCS Reference Sub-Process drop downs are incorrect for the process listings.	No workaround is possible. Wait until the next release of AART to associate Reference Sub-Processes.
20083	5.1	01/07/08	ARCA-ECS and ARCA-PCS auto update on save does not work.	Manually update the ARCA data by clicking the ARCA UPDATE button on ARCA-ECS and ARCA-PCS tabs when changes are made to the PCS/ECS Assess and Test data.
20082	5.1	12/15/07	When upgrading the AART 5.0 to AART 5.1 utilizing the AART 5.1 Patch the last row Risk Assessment does not display of the ARCA-ECS and ARCA-PCS tabs.	If no data has been added, click the CLEAR ALL button and then click the ARCA UPDATE button on the ARCA-ECS and ARCA-PCS tabs.  If data has been entered contact the helpdesk for a technical fix.
20081	5.1	12/15/07	When upgrading the AART 5.0 to AART 5.1 utilizing the AART 5.1 Patch the PCS-Asses Documentation Location column does not transfer.	If no rows have been added or deleted since the AART 4.1 version, copy the Documentation Location data from AART 4.1 to the upgraded AART 5.1 version. Copy and then click Edit -> Paste Special -> Values.  If rows have been changed then contact the helpdesk.
